ADVANCED CATHETERISATION TRAINER - COMPLETE SET

60150 *Complete Set*

Simulated Patient

Our Advanced Catheterisation Trainer facilitates the teaching of urethral and supra-pubic catheterisation, as well as how to demonstrate self-catheterisation to patients (when using the optional Self Catheterisation Stand). It has interchangeable accurate male and female anatomy, and both sets of genitalia are realistically soft and pliable. The feel of the catheter passing along the urethra into the bladder corresponds closely to real life.

CATHETERISATION TRAINERS

Skills Gained

- Correct handling of male and female anatomy
- Aseptic catheterisation technique
- Catheter placement: accepts catheters from 14-16 French (male) and 12-16 French (female)
- Fluid management
- Withdrawal of catheter
- Intermittent Self Catheterisation (ISC) when used with the optional Self Catheterisation Stand (**60167**)
- Suprapubic catheter insertion and catheter management using Suprapubic Bung*

* Advanced Trainers only

Product Qualities

Anatomy

- Male anatomy: realistic meatus, flaccid penis and replaceable foreskin
- Female anatomy: partable labia with realistic urethral meatus and vaginal opening

Realism

- Supple urethra and resistant sphincter providing realistic response

Key Features

- 1 litre fluid bag on stand provides pressurised fluid flow
- Syringe supplied with water-based lubricant to simulate proprietary local anaesthetic gel
- Non-drip valve
- Reusable double-sleeve catheter packaging is supplied for teaching aseptic catheter handling

Versatility

- Easily interchangeable male and female catheterisation units

Safety

- Product is latex free (catheters provided contain latex)

Cleaning & Care

- Skin surface is washable using soap and water

ADVANCED CATHETERISATION TRAINERS - MALE & FEMALE

The Advanced Male and Female Catheterisation Trainers are available separately. Both are supplied with a suprapubic site and bung.

BASIC CATHETERISATION TRAINERS - VALUE SET

A cost effective Value Set containing basic versions of each of the Male and Female Catheterisation Trainers. These do not contain the suprapubic bungs.
